

Proiectarea pentru fabricație – Design for manufacturing

Bibliografie

“Elemente de packaging al modulelor electronice” – Editori: Paul Svasta, Virgil Golumbeanu

“Introducere în tehnologia subansamblelor electronice”– V. Cehan, T. Goraș, Ed. Matrix Rom, București, 1997, ISBN 973-9254-72-1

“Handbook of Industrial Engineering. Technology and Operations Management” – Institute of Industrial Engineers, edited by Gavriel Salvendy, 3rd edition, 2001, ISBN 0-471-33057-4

“Handbook for Product Design for Manufacturing” – Bralla J.G., 1986, McGraw-Hill, New York

“Concurrent Engineering. Contemporary Issues and Modern Design Tools” – Editori: Hamid R. Parsaei, William G. Sullivan, 1993, University Press, Cambridge, Marea Britanie

“Product Design for Manufacture and Assembly” – Boothroyd, G., Dewhurst, P., Knight, W., 1994, Marcel Dekker, New York

“Design For Maintainability” – Andy FitzGerald, The Journal of Reliability Information Analysis Center, Vol.8, Number 4

“Will It Sell? How to Determine If Your Invention Is Profitably Marketable” – James E. White, 2002

“Challenges to Foreign Investments in High-Tech Semiconductor Production in China” – Falan Yinug, Journal of International Commerce and Economics, May 2009

“Soldering in Electronics Assembly” – Mike Judd, Keith Brindley, 2nd edition, 1999, ISBN 0 7506 35452

“Laser Solutions for Soldering” – Tony Hoult, www.circuitassembly.com, Februarie 2004

“Metode avansate de investigatie a structurilor “PCB”” – Norocel Codreanu, Ed.Cavallioti, Bucuresti, 2009

“Handbook of Lead-Free Solder Technology for Microelectronic Assembly”, Kathleen A.Stalter; Editor: Karl J.Puttlitz, New York, 2004, ISBN: 0-8247-4870-0

“4P Soldering Model for Solder Joints Quality Assessment “, Paul Svasta, Ioan Plotog, Traian Cucu, Alexandru Vasile, Alexandru Marin, ISSE 2009 Proceedings, 13-17 Mai 2009, Brno

“Solder Paste Shelf Life Extending Approach for Prototyping and Small Series Activities”, Ioan Plotog, Paul Svasta, Traian Cucu, Alexandru Vasile, Alexandru Marin, ISSE 2009 Proceedings, 13-17 Mai 2009, Brno

“Design for Six Sigma: A Roadmap for Product Development” - Kai Yang, Basem S.El-Haik, The McGraw-Hill Companies Inc., 2009, ISBN 978-0-07-154767-3
